

# HOYA PNX

The Lightest Lens Material Available Today

One of our **greatest inventions** is one you'll barely notice.

We created the **lightest lens** material to help you forget you even wear glasses!

Phoenix lenses are incredibly tough and scratch resistant. From the playground to the boardroom – they are designed to live up to the demanding life of every member of your family.

## Tough and Durable

Plastic

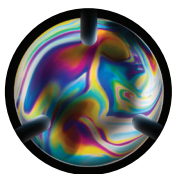

Phoenix

Phoenix is 60 times stronger than standard plastic and up to 20% thinner than standard plastic.

## Scientifically Formulated to be Forgotten

Compared to older technology, Phoenix lenses provide the clearest possible vision available, free from annoying distortions, common in older lens technologies such as polycarbonate lenses.

Polycarbonate

Phoenix

Distortion as seen under polarized light (Polariscope).

## Experience the benefits of Phoenix

Lightest Lens  
Material in  
the World

100%  
UVA/UVB  
Protection

Impact Resistant,  
Exceeds FDA  
Impact Guidelines

**HOYA Lenses Are Only Available at  
HOYA-Authorized Eye Care Practices**
